## BIOGRAPHY

Professional DJs Alan and Alex da Silva have been contributing both talent and style in the Vancouver electronic music scene since 2001.

Using their "Yes, we look alike" twin marketing gimmick, along with sheer talent and love for the music Those Twins have been booked show after show with great response from the crowds. The energy and professional showmanship by both Alan and Alex on the decks reminds us what it really feels like to enjoy great music.

After years of playing, Those Twins launched their promotion and production company; warmm.ca. With countless tracks under their belt, including 'Fever', Those Twins keep focused on climbing the DJ ladder of status, sound, and powerful production.
